BRINGING THE FUN BACK TO HARD HOUSE

JLF is a DJ on a mission to bring the fun and party vibe back into hard house and make it once again accessible to the masses. At a time where it is increasingly difficult to stand out, he's carved his own niche with high energy sets packed full of mashups, edits and reworks of his own creation. These combine to provide a unique experience every time he plays – a breath of fresh air in the sometimes 'a bit too serious' hard house scene!

“ There is no one doing what he is doing right now, no one!”
